### How does the plan work?

**IMPORTANT!** With an HMO, you must choose a Primary Care Physician (PCP) before receiving care.

- Your PCP will be the provider with the best overall picture of your health and will be the one to coordinate additional care.
- If you need the care of a specialist, you must first see your PCP. Then, he or she would provide a referral to a specialist within the HMO's network.
- There is no deductible and preventive care is 100% covered.
- You will pay a fixed **copay** per visit for most services.
- You are protected with an annual **out-of-pocket maximum**. This is the most you will pay for covered services in a given year. Once you meet this amount, your plan covers eligible health care expenses at 100%.

### Find a doctor at [www.anthem.com/ca/](http://www.anthem.com/ca/)

You have access to the Anthem Blue Cross network of participating providers.

Prenatal and Postnatal Care	\$25 copay	50% coinsurance
Delivery and Inpatient Services	20% coinsurance	

### How does the plan work?

- Preventive care is 100% covered.
- You must first meet an annual deductible before the Plan begins to pay benefits.
- Once you satisfy your **annual deductible**, coinsurance applies for most services, so you'll pay a percentage of your health care expenses and the Plan will pay the rest.
- You are protected with an annual **out-of-pocket maximum**. This is the most you will pay for covered services in a given year. Once you meet this amount, your plan covers eligible health care expenses at 100%.
